REMARKS

Listed below are previously filed, and co-pending, U.S. Patent applications. These applications, the related published PCT Patent Applications, and the present application are commonly owned:

- (1) Provisional U.S. Patent Application No. 60/037,727, filed February 7, 1997 (abandoned)
- (2) U.S. Patent Application No. 09/260,073, filed March 1, 1999

The months of publication for documents (AT) and (BV) could not be determined. The year of publication for document (AT) is sufficiently earlier than the effective US filing date and/or the foreign priority date of the present application so that the particular month of publication of the document is not in issue (MPEP 609).

The Examiner is respectfully requested to consider the enclosed documents identified in this paper and in the attached Form PTO-1449 during the course of the examination of this application.

Respectfully submitted,
